## Kentucky Bridging Event: Relevant Research & Promising Practices for School Turnaround

As a result of the session, participants will...

- Apply research recommendations in the context of their school environment, drawing on information presented by the expert practitioners and school team sharing
- Implement next steps of a school turnaround action plan based on IES practice guide checklist indicators for each of the 4 research recommendations
- Understand the linked nature of the turnaround research recommendations and use that knowledge to guide further planning and implementation of follow-up activity in their schools
